SIP *and* SERVE

Served slightly chilled, displays inviting fresh raspberry, cranberry, and pomegranate aromas, with a bit of black pepper and hibiscus. Flavors of brambly, bright red berry with a touch of spice, mid-palate acidity lead to a juicy, mouthwatering finish.

Chill and grill! Wildflower really shines alongside your latest grilling masterpiece – try it with your famous barbecued chicken recipe, slow-cooked ribs, seared vegetables, you name it. Wildflower is the lighter red accompaniment to all your culinary adventures.

SCREW TOP**

"A perfect end-of-the day sipper - chilled, with a touch of soda water and slice of orange. At my house, Wildflower is the go-to when friends drop by for a barbecue."
